

Career Opportunities

FPS looks for qualified, motivated, talented and career oriented individuals who want to help us move our company forward while shaping the property loss control engineering industry.

We offer the opportunity to grow an exciting and challenging career. FPS employees represent a highly select staff with common traits (strong work ethic, integrity, good people skills, desire to learn, pride in the profession). All engineers are expected to be self-motivated to produce a high quality product, and are given the individual responsibility to make decisions affecting the operation of the company.

Submit your resume for consideration.

No agencies please.
